

30 March 2021

Dear Hammersmith and Fulham parents and carers,

Easter holidays

As the school term ends, we encourage you to look through the Government roadmap guidance carefully [COVID-19 Response - Spring 2021 - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/roadmaps/covid-19-response-spring-2021). Even though the lockdown is slowly easing, we all still need to be careful, as cases in schools are increasing.

Here are some good ways to stay safer:

1. If you're eligible for a Covid vaccination, do get it. This is all frontline health and social care staff, or people over 50, those who are carers, or those eligible for NHS flu vaccinations.
Here's the link [Book a coronavirus vaccination - NHS \(www.nhs.uk\)](https://www.nhs.uk/booking/coronavirus-vaccination)
2. Remember to keep your distance from other people, wash your hands, and cover your face.

3. When schools go back in April, keep your distance from other parents at the gates-you don't want to catch or spread Covid.
4. Take your children for their **routine childhood immunisations at the GP**. GP surgeries are safe and vaccines are free – call your

practice for an appointment. These immunisations protect your children from nasty infections like measles, tetanus and polio.

5. If you need to isolate, remember you can call our free, friendly H&F Community Aid Network-they can help with food, social isolation and financial help. Get in touch with them by calling **0800 145 6095**, or emailing can@lbhf.gov.uk

Yours sincerely

Dr Nicola Lang MA (Cantab) MBBS (Lond) MSc FFPH
Director of Public Health
